

Valencia Falls Computer & Technology Club

16th Record Season

Technology Entertains the Computer & Technology Club

Hidden Figures

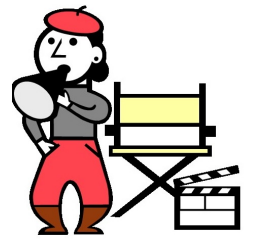

Date: Sunday, November 19, 2017

Time: 7:00 P.M. - Drinks & Snacks Party

7:30 P.M. - Discussion & Movie

Place: Social Hall

The evening starts with a half-hour Drinks & Snacks Party at 7 PM followed by the showing of the film. No charge for Club members; \$1 for non-members and guests.

In the early 1960s as the United States raced against Russia to put a man in space, NASA found untapped talent in a group of African-American female mathematicians who served as the brains behind one of the greatest operations in U.S. history. Based on the unbelievably true life stories of three of these women, known as "human computers", we follow these women as they quickly rose up the ranks of NASA alongside many of history's greatest minds specifically tasked with calculating the momentous launch of astronaut John Glenn into orbit and guaranteeing his safe return. They crossed all gender, race and professional lines while their brilliance and desire to dream big, beyond anything ever accomplished before by the human race, firmly cemented them in U.S. history as true American heroes. Before the movie starts, we will hear from current Valencia Falls Computer & Technology Club members who actually designed and worked on the IBM mainframe computers which were also critical to the success of the mission.
