Agenda

- * **Q&A: Questions from the floor on any computer or technology topic**
- * **Club Business: Subjects for future meetings, classes, workshop status...**
- * **Main Presentation**

Do you love seeing your memories in pictures? What's the easiest way to enjoy your lifetime of photos? Chris and Jim Guld traveled through Europe for a month last summer and are EXPERTS on how to take, organize and share your photos easily online. They only used smartphones on their trip but no matter what camera you use while home or away, you will benefit from their tips. Bring your questions!

Meet Chris and Jim Guld, the Geeks on Tour. They are Geeks who will teach about really using your smart mobile technology. They call themselves “Geeks” but they have the ability to explain even complex technology in very plain, easy to understand language. They demonstrate why Smart Phones are much more useful than regular phones. You will learn how they use Smart Phones and Tablets and many things they can do to enhance your life. The seminar is not system specific. Demonstrations use both Android and Apple devices. They are going to discuss how to get the most usage from your smart mobile devices, including both phones and tablets and they will differentiate between the capabilities of IOS operating system-based devices (Apple) and Android. They will also discuss technological advances for these products which are on the horizon. At the conclusion, the speakers will be available to answer your questions. New members are welcome to attend and participate.
